#### 4.4.B Calling Card Rates for International Origination

US LEC provides International originating calling card to domestic and International terminating points as specified in the following matrices. Two tables are required for determining the charge for a call. In Table 1, locate the originating country location in Group A through E. In Table 2, locate the terminating country and move across the line to determine the charge for the first and each additional minute for each call. (For example, to locate the charges for a Calling Card call from Belgium to Aruba. In Table 1, Belgium is found in Group B, in Table 2, on the Aruba line, Group B results in a rate of \$3.12 for the first minute and 1.12 for each additional minute). **Note – certain Originating and Terminating countries are subject to calling availability based upon security and fraud measures.**
